JOHNS HOPKINS
UNIVERSITY

3 Courses

Foundations of Data Visualization

Advanced Techniques in Data Visualization

Specialized Data Visualization Approaches

Sep 20, 2025

Izabelle de Araújo Brito

has successfully completed the online, non-credit Specialization

Data Visualization

In this Specialization, learners gained comprehensive skills in data visualization, exploring both foundational and advanced techniques to represent and interpret diverse datasets effectively. They developed expertise in design principles, data representation, interactive graphics, and advanced visualization methods, including temporal, volumetric, and network data visualizations. The Specialization emphasized usability, evaluation metrics, and enhancing visual communication for improved comprehension and decision-making. Through hands-on projects, learners applied their knowledge to solve real-world data challenges and demonstrated their ability to create impactful, industry-standard visualizations.

Lecturer, Department of Computer Science, Whiting School of Engineering, Johns Hopkins University
